URL: <https://jff.jp/jpf.go.jp/watch/ic2023/>

On August 1, 2023, the Japan Foundation will launch a special program called **JFF+ Independent Cinema 2023** to shed light on the mini theaters that support the cinema culture of Japan.

The lineup of streamed films includes those recommended by mini theaters throughout Japan, as well as by international film critics and film festival directors. Videos that introduce each participating mini theater, their communities, and the feelings of their staff, will also be produced and streamed. Together these will introduce the current state of cinema culture and regional culture in Japan from multiple angles.

This project is a continuation of the streaming project JFF+ Independent Cinema carried out from December 15, 2022, through June 15, 2023. The previous project was accessed from over 150 countries and regions around the world, including Indonesia, the U.S., Australia, and Mexico, attracting interest from viewers from a wide range of ages, from teenagers through to the elderly. The project received a great response, with many positive comments received from viewers, and some of the streamed works were covered by overseas media.
